

Managing Stormwater Treatment Assets Effectively

Managing your WSUD assets effectively can provide council and your community with a multitude of benefits. Join us for breakfast and hear about emerging best-practice stormwater asset management, and enjoy a unique opportunity to share knowledge with other councils and practitioners on managing WSUD assets.

Melbourne Water's Living Rivers program will provide attending councils with its newly released WSUD Asset Management package designed to support council's management of WSUD assets. The package consists of:

- WSUD Maintenance Guidelines
- Life Cycle Costing data
- WSUD Asset Inventory
