Stormwater Management Foundations

How to deliver better stormwater outcomes

Designed for engineers, technical officers & works supervisors

Presented by specialist trainers via **Clearwater**, this **online** course covers stormwater management basics and best practice stormwater management solutions.

Learning Outcomes:

- Participants will develop a deeper understanding of the complexities, challenges & opportunities in stormwater management
- This new foundational-level knowledge will enhance cross-sectoral and cross-departmental collaboration to deliver better stormwater outcomes for our communities

Clearwater, in collaboration with E2Designlab, brings expert trainers widely recognised across the public works sector for providing specialist advice in stormwater management, water sensitive urban design and integrated water management.

Session 1: Drainage Principles & Planning

9:00am-1:00pm 11 October 2023
